5.	district headquarters on ul. u dvou srpu in Frahs-Kosire	25>
25X1 25X1 [The military district headquarters was in the former Hera-Film office together with a secretariat of the Communist Farty. Members of the 1932 through 1934 classes had to report in the fall of 1952. At preliminary registration, they were given draftees' cards (branecky prukaz) which they were required constantly to carry about them. All changes of residence of a duration of over seven days were entered in these cards by the registration office.	
6.	Construction work west of Bor (N 50/P 63) began in 1951 and was not completed prior to the summer of 1953. Local residents said that a new barracks area including residential installations for NCOs and officers was under construction there. Soldiers quartered in the castle wore red service color and were referred to as infantrymen.	
7.	Three new buildings occupied by soldiers wearing khaki uniforms were west of the Frievidza (Q 49/T 97) railroad station and north of the Bojnice (Q 49/T 97) road on 10 June 1953. A company of soldiers carrying rifles and machine guns and singing Slovak songs marched to these billets from the direction of Bojnice. Two or three motor vehicles were near the billets. Source recollected no military units formerly stationed at Frievidza.	
25X1 1.	Comment. Source possibly observed units of the 72d AAA Div whose headquarters is stationed at Praba Bohnice. The billets of the 124th, 128th and 160th AAA Regts of this division were unlocated.	25>
25X1 _{2.} [Comment. The 80th Guard Bn has been stationed at Motol for years. Elements of this battalion are confirmed there by the present report.	25X
25X1 3.	Comment. The occupation of the Stefanik Barracks in Smichov was undetermined. It is believed that several units possibly including one regiment of the 72d AAA Div are quartered in this installation.	
25X1 4. [Comment. The building possibly houses the PS high command which allegedly moved to Praha-Smichov in late 1950.	25>
25X1 5. [Comment. The Praha post headquarters and one company of the 80th Guard Br is carried in this installation.
